

Classificatie van doodsoorzaken 14-10-2022

In de scans van 1868 verschijnen plotseling getallen bij de doodsoorzaken. Deze coderingen zijn kennelijk toegevoegd in de registers door de inspecteurs van het Geneeskundig Staatstoezicht. Maar waarop zijn de codes gebaseerd?

Na anderhalf jaar zoeken heb ik de exacte lijst voor 1868 gevonden.

Tijdens mijn zoektocht ben ik allerlei andere indelingen tegengekomen die een inzicht geven in hoe de statistiek in de loop der tijd met de ontwikkelingen in de maatschappij, de wet- en regelgeving en de medische wetenschap is meegegroeid.
